

# Shy Snail Meets the Starry Night

picture by Echo

**In the heart of the night sky, small and  
easy to miss, lived a shy snail.**

A dark blue night sky with a large yellow crescent moon in the upper right and several small white stars scattered across the upper half.

**The a shy snail was very small, and the  
wide the night sky felt so very big.**

**Every day the a shy snail looked around  
and wondered if it could ever matter.**

**Then one morning, something went wrong in the night sky.**

**The light went out, and everyone was  
afraid.**

**"I am too small," the a shy snail  
thought. "But I will try anyway."**

**The a shy snail took a deep breath and  
tried with all its heart.**

**The first try did not work. It only made things wobble.**

**The wind picked up, but the a shy snail  
held on.**

**Every time it fell, it learned one new thing.**

**The first try did not work. It only made things wobble.**

**The a shy snail sat down and felt very  
small indeed.**

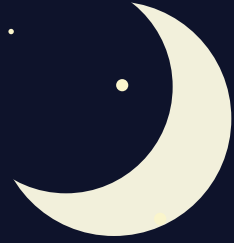

**But it remembered the faces that needed help, and it stood up again.**

**The second try was better. The third was  
braver.**

**Little by little, the a shy snail kept  
going, and the others began to help too.**

A dark blue night sky with a yellow crescent moon in the upper right and several small yellow stars scattered across the frame.

**It was not magic. It was trying, again  
and again, until it worked.**

**The wind picked up, but the a shy snail  
held on.**

**A friend called out, and the a shy snail  
felt less alone.**

**Every time it fell, it learned one new thing.**

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the upper half.

**"You can do it," someone whispered. And  
the a shy snail believed it.**

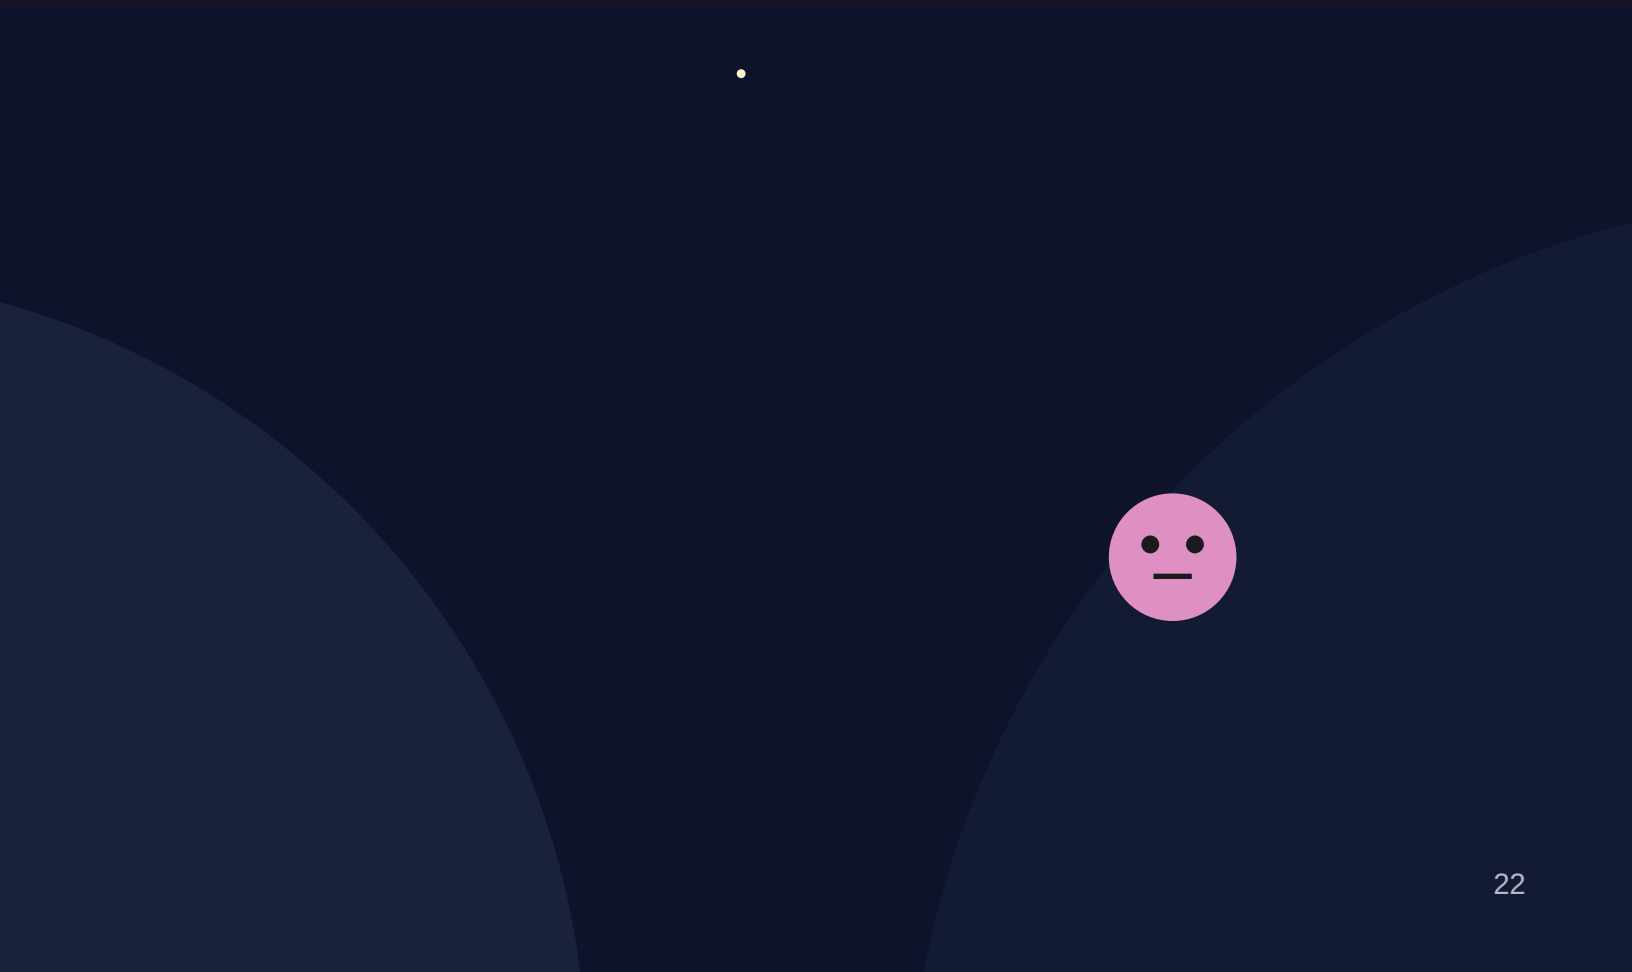

**Step by step, the a shy snail found a new way no one had seen before.**

**It tried again, and this time, it worked.**

**Everyone in the night sky gathered  
around, amazed.**

**The a shy snail learned: even the  
smallest one can help.**
