

A Little Lantern on a Cold Hill

picture by Echo

**In the heart of a snowy hill, small and
easy to miss, lived a small lantern.**

**The a small lantern was very small, and
the wide a snowy hill felt so very big.**

**Every day the a small lantern looked
around and wondered if it could ever
matter.**

**Then one morning, something went wrong in
a snowy hill.**

**The light went out, and everyone was
afraid.**

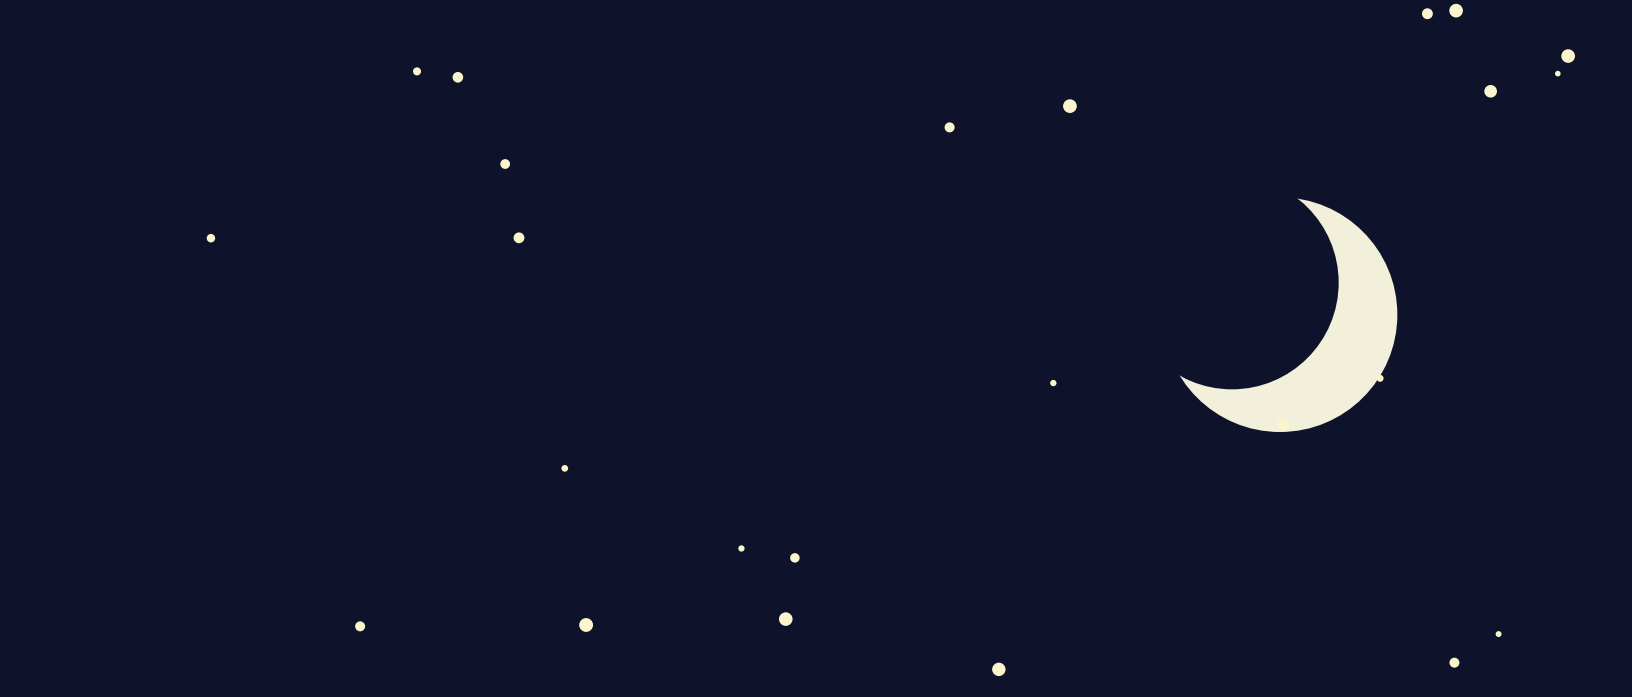

**"I am too small," the a small lantern
thought. "But I will try anyway."**

A dark blue night sky with a yellow crescent moon in the upper right and several small yellow stars scattered across the upper half.

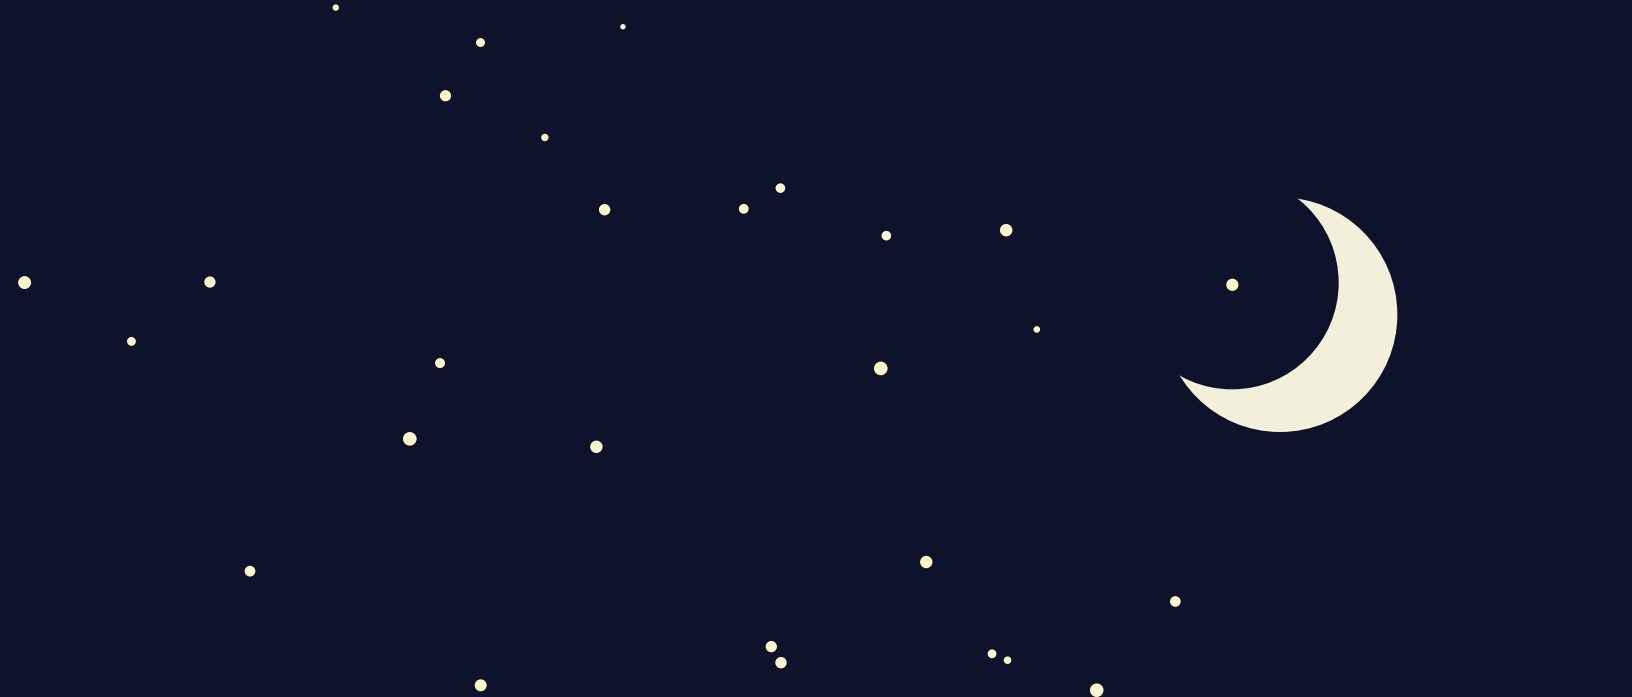

**The a small lantern took a deep breath
and tried with all its heart.**

A dark blue night sky with a yellow crescent moon in the upper right and several small yellow stars scattered across the frame.

**It was not magic. It was trying, again
and again, until it worked.**

**A friend called out, and the a small
lantern felt less alone.**

**A friend called out, and the a small
lantern felt less alone.**

The first try did not work. It only made things wobble.

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the background.

**The a small lantern sat down and felt
very small indeed.**

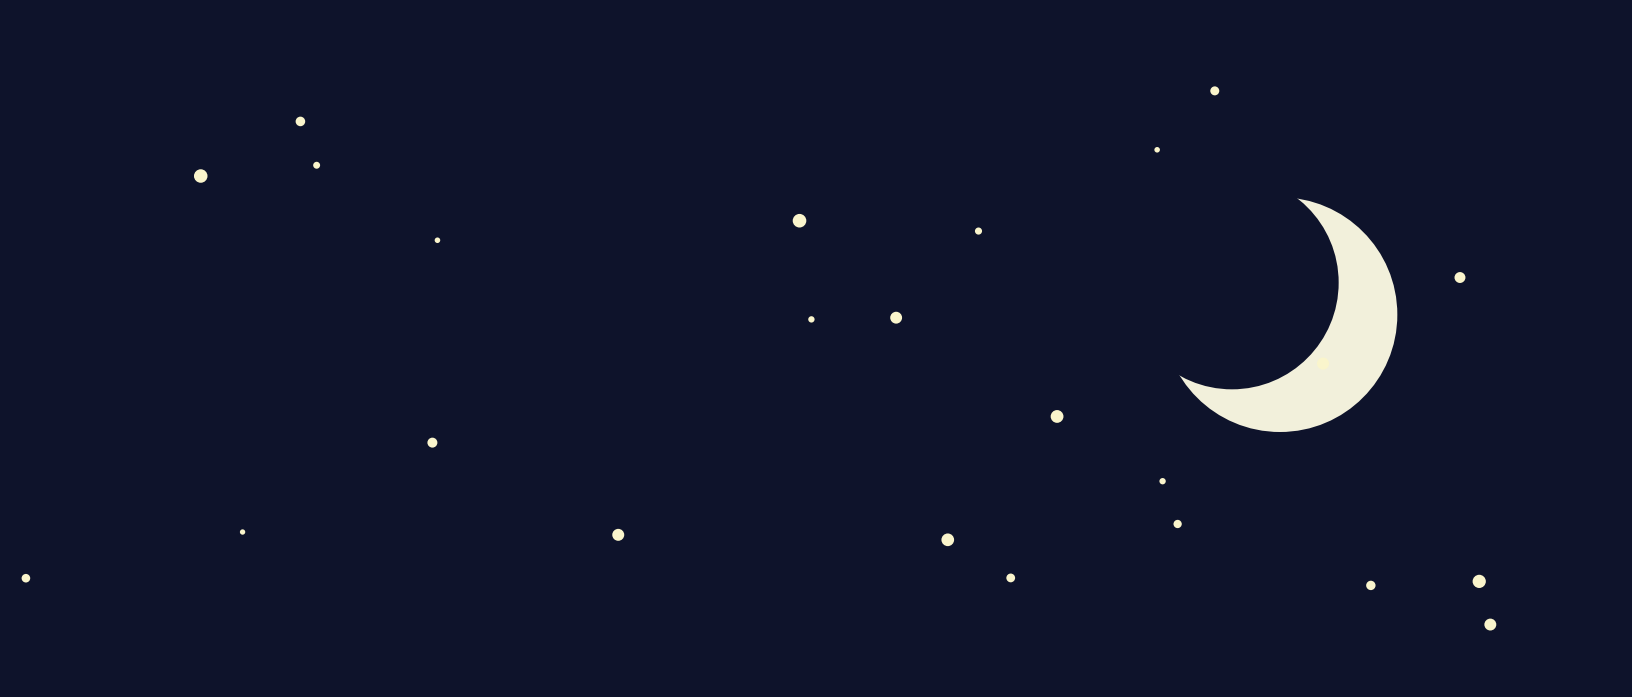

But it remembered the faces that needed help, and it stood up again.

**The second try was better. The third was
braver.**

**Little by little, the a small lantern
kept going, and the others began to help
too.**

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the upper half.

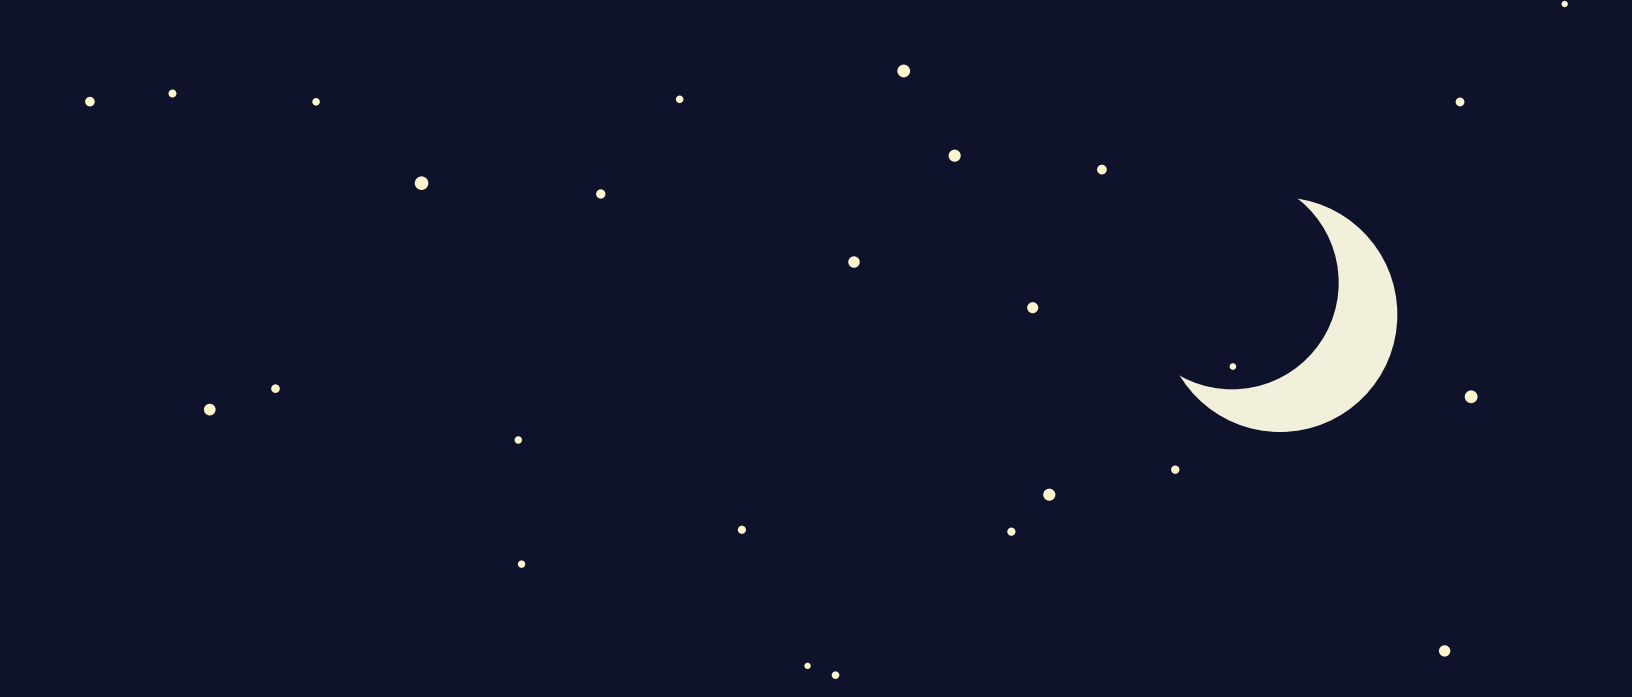

**It was not magic. It was trying, again
and again, until it worked.**

**The wind picked up, but the a small
lantern held on.**

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the frame.

**A friend called out, and the a small
lantern felt less alone.**

Every time it fell, it learned one new thing.

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the frame.

**"You can do it," someone whispered. And
the a small lantern believed it.**

**Step by step, the a small lantern found a
new way no one had seen before.**

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the upper half.

It tried again, and this time, it worked.

**Everyone in a snowy hill gathered around,
amazed.**

**The a small lantern learned: being brave
means trying again.**

The End

being brave means trying again
