

The a Curious Kitten of a Rainy Day

picture by Echo

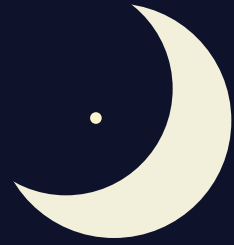

**Once upon a time, in a rainy day, there
lived a curious kitten.**

**The a curious kitten was very small, and
the wide a rainy day felt so very big.**

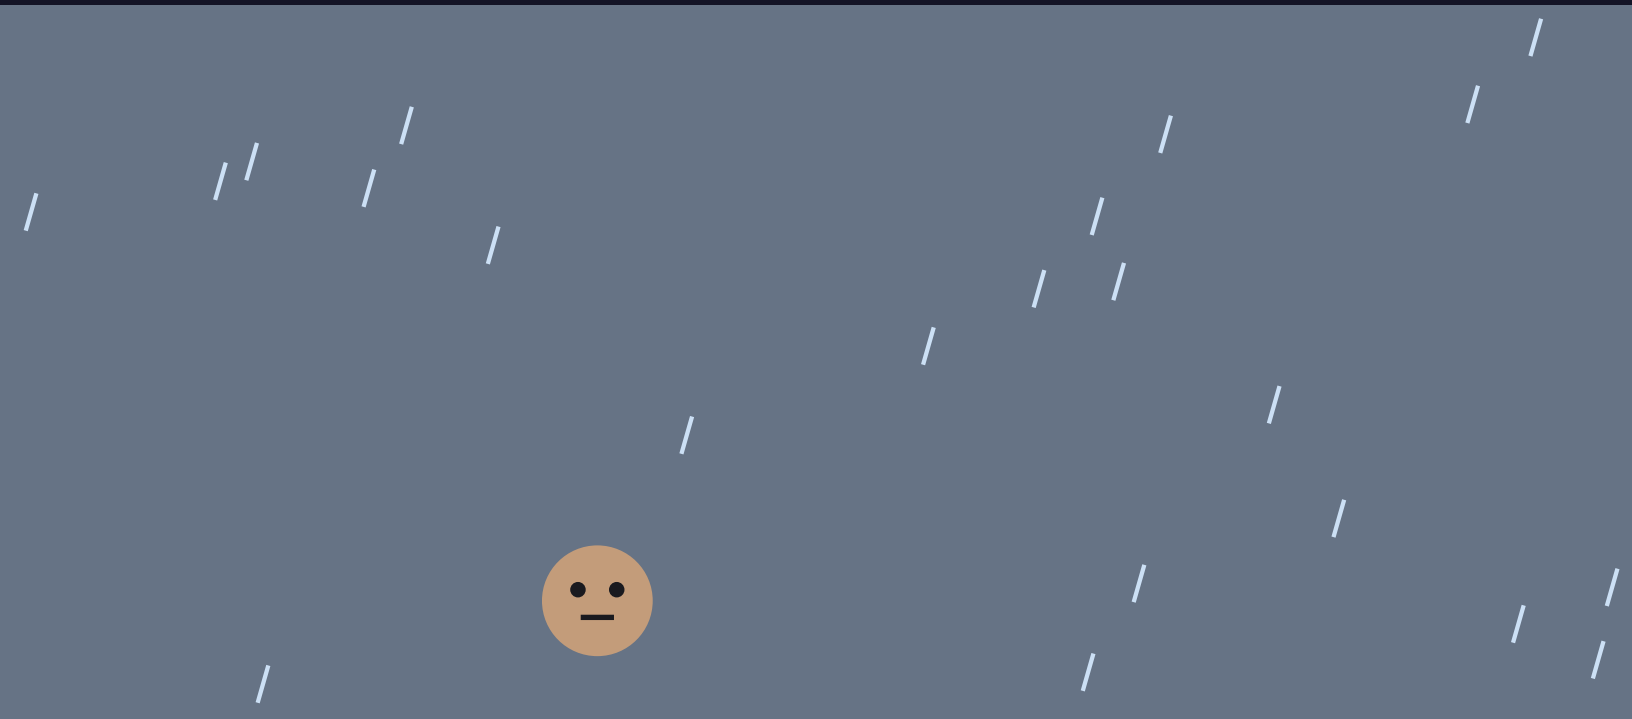

**Every day the a curious kitten looked
around and wondered if it could ever
matter.**

Then one morning, something went wrong in a rainy day.

**The light went out, and everyone was
afraid.**

**"I am too small," the a curious kitten
thought. "But I will try anyway."**

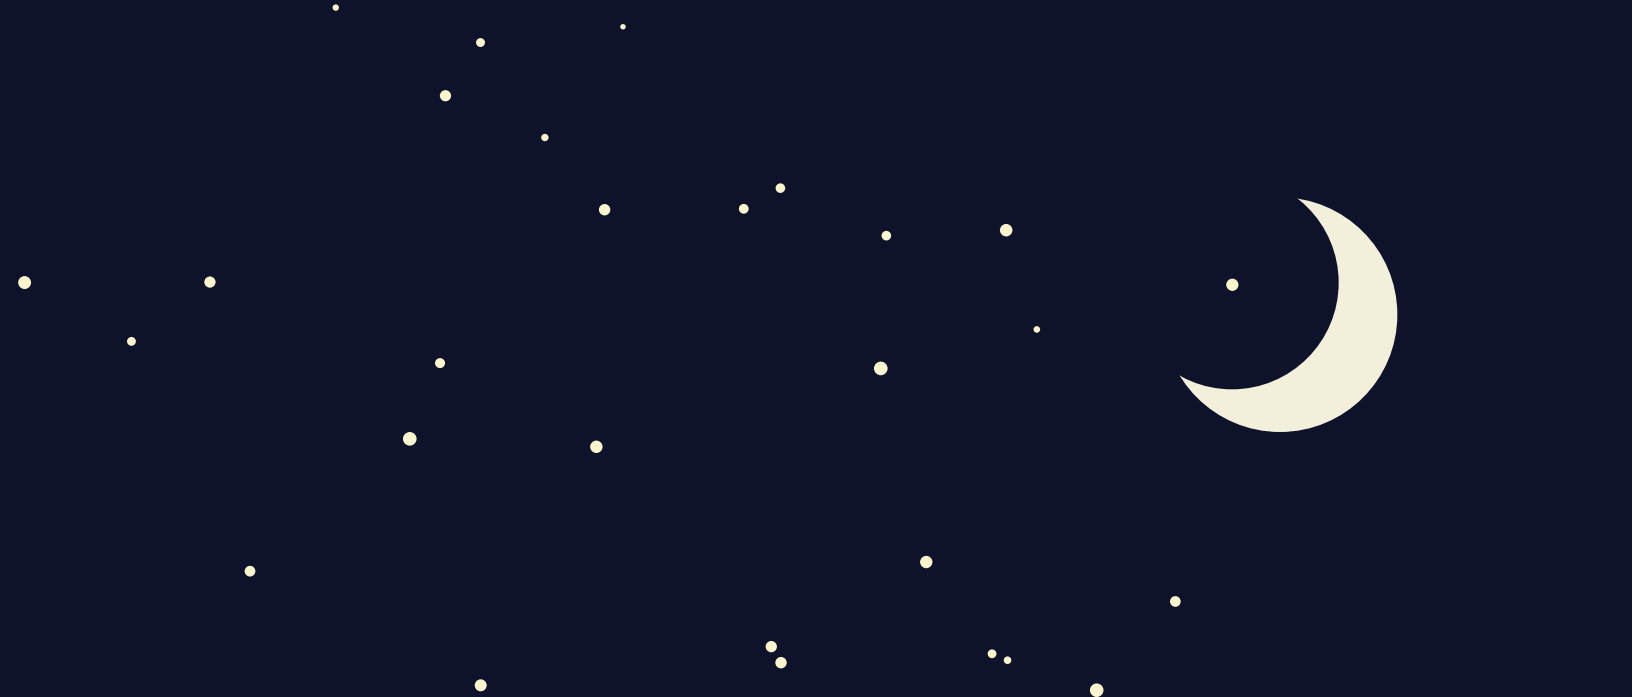

**The a curious kitten took a deep breath
and tried with all its heart.**

Every time it fell, it learned one new thing.

**The wind picked up, but the a curious
kitten held on.**

A dark blue night sky with a large yellow crescent moon in the upper right and several small white stars scattered across the upper half.

**It was not magic. It was trying, again
and again, until it worked.**

The first try did not work. It only made things wobble.

A dark blue night sky with a large, bright yellow crescent moon in the upper right. Numerous small, white stars are scattered across the sky.

**The a curious kitten sat down and felt
very small indeed.**

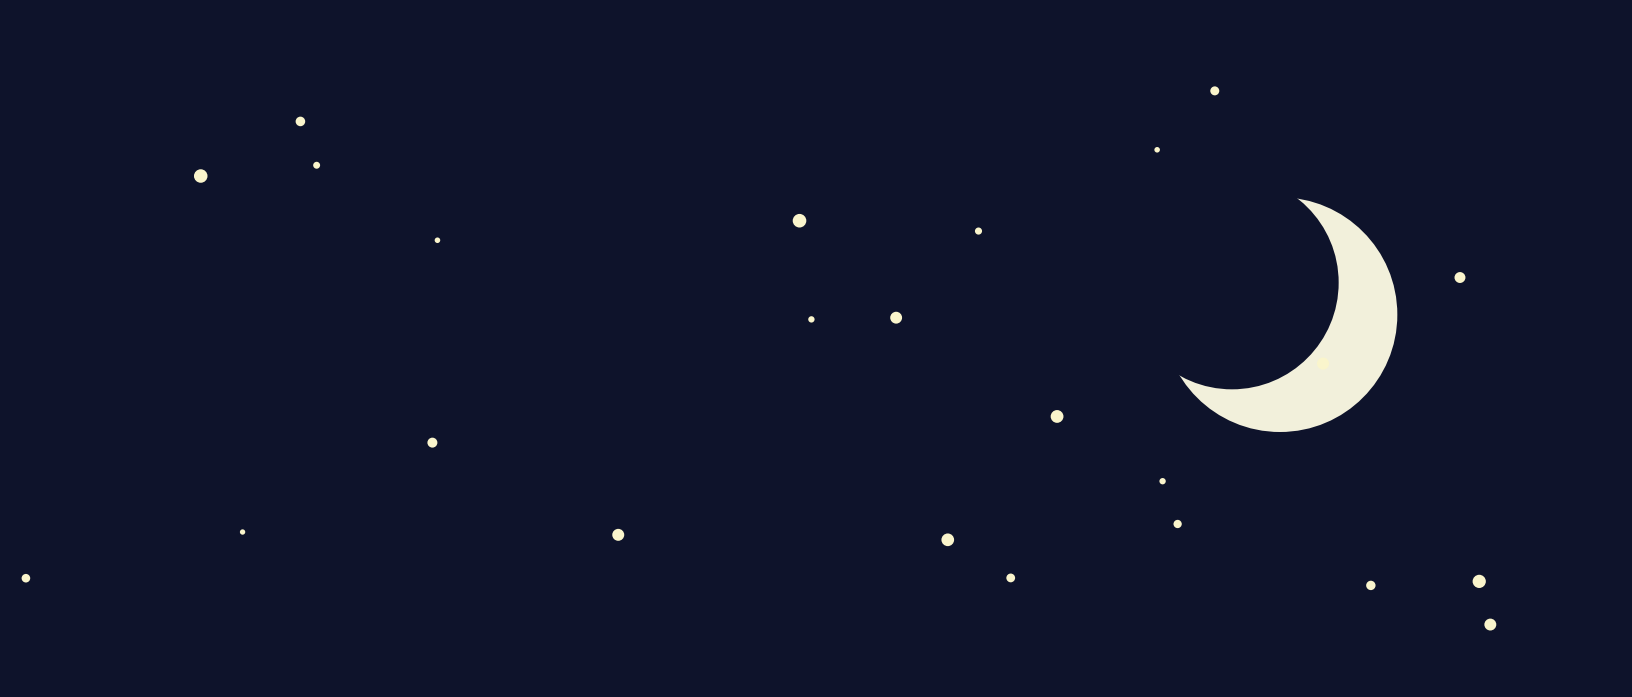

But it remembered the faces that needed help, and it stood up again.

**The second try was better. The third was
braver.**

**Little by little, the a curious kitten
kept going, and the others began to help
too.**

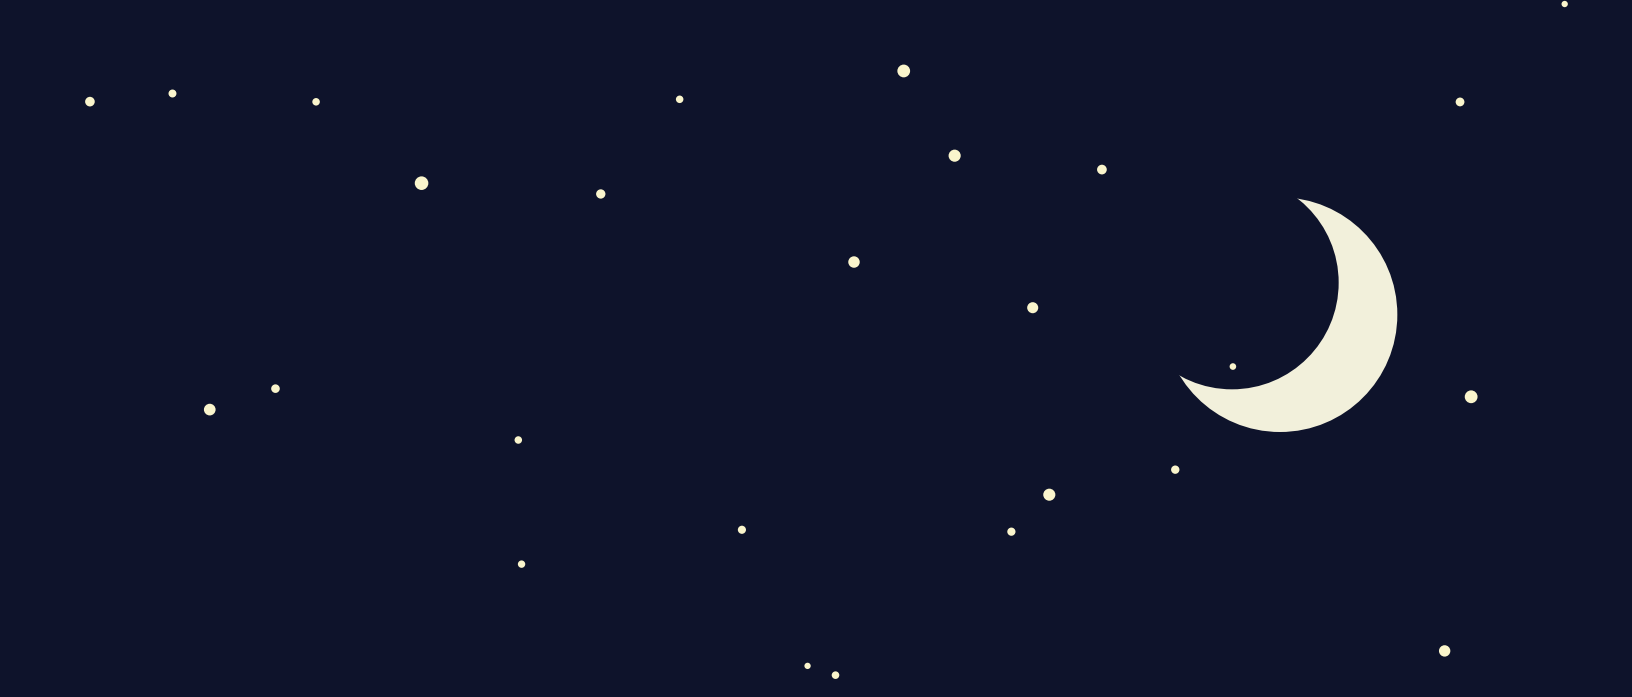

**It was not magic. It was trying, again
and again, until it worked.**

**The wind picked up, but the a curious
kitten held on.**

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the frame.

**A friend called out, and the a curious
kitten felt less alone.**

Every time it fell, it learned one new thing.

A dark blue night sky with a large, bright yellow crescent moon in the upper right. Numerous small, white stars are scattered across the sky. The bottom half of the image is a solid dark blue background.

**"You can do it," someone whispered. And
the a curious kitten believed it.**

**Step by step, the a curious kitten found
a new way no one had seen before.**

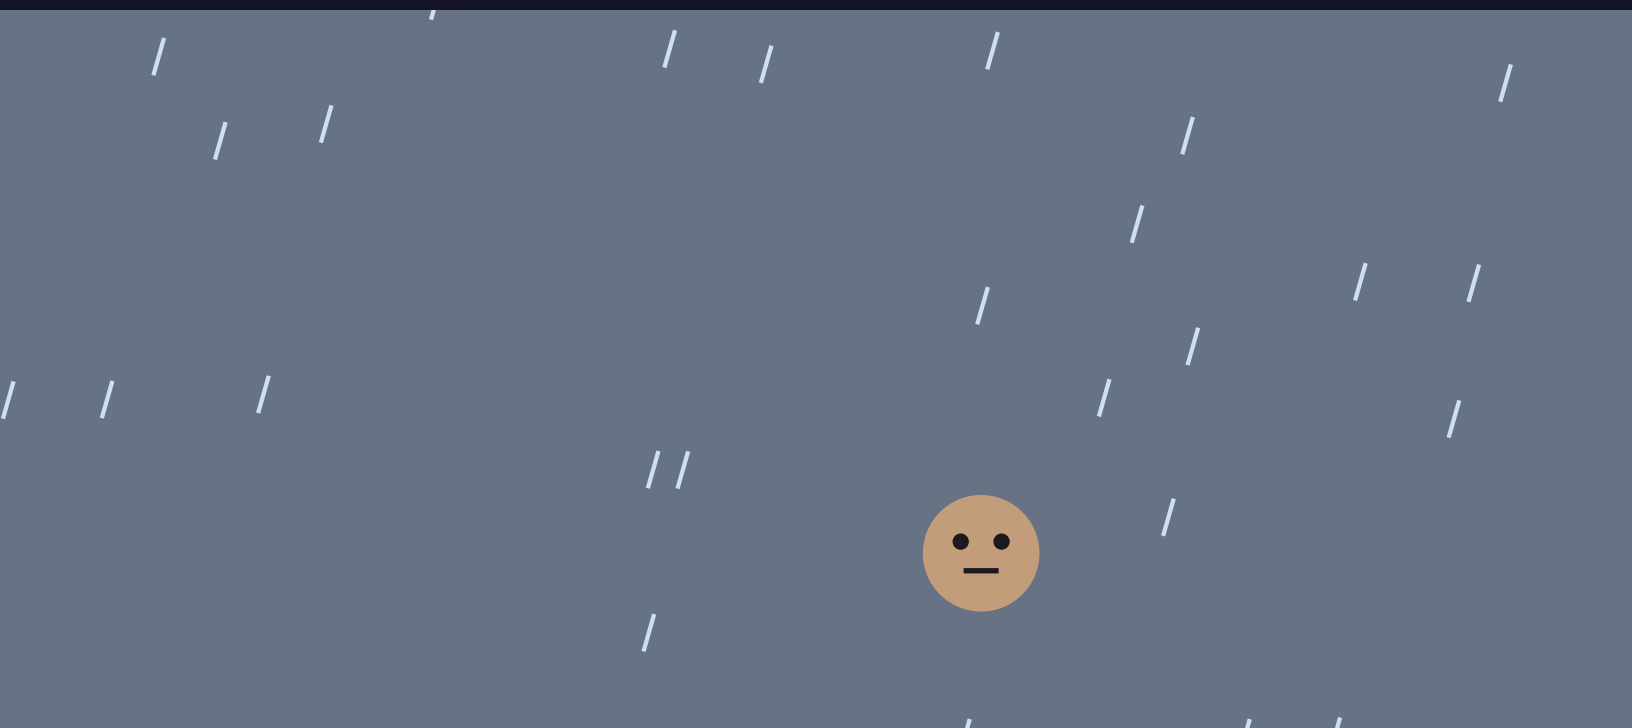

A dark blue night sky with a yellow crescent moon in the upper right and several small white stars scattered across the upper half.

It tried again, and this time, it worked.

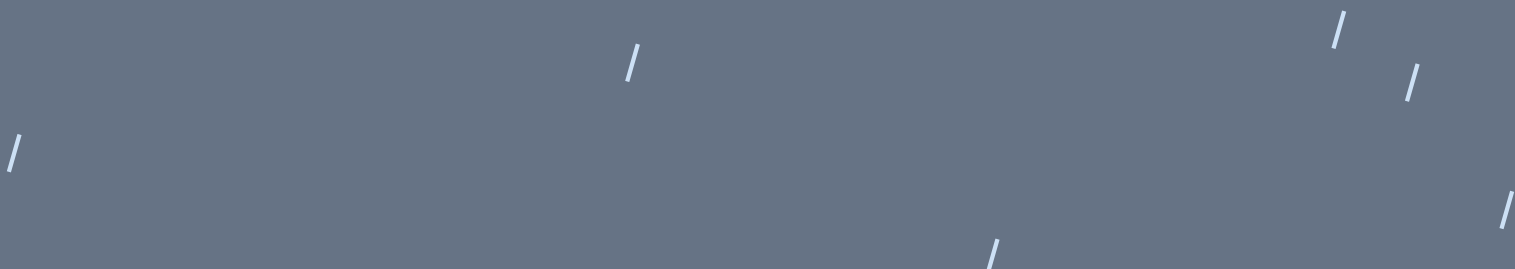

**Everyone in a rainy day gathered around,
amazed.**

**The a curious kitten learned: you don't
have to be big to matter.**

The End

you don't have to be big to matter
