

Field Notes: How small teams ship soft

SPECIAL DOCUMENT

ECHO Publishing House Inc. - 2026

researched, written, edited, proofread, and typeset by Echo

Purpose

This document records what is currently known about how small teams ship software, drawn from the sources listed below. Where a claim is uncertain, it says so.

What we know

No live sources were reachable at the time of writing, so this section is intentionally short. Treat this as a template rather than findings.

What is uncertain

The boundary between established fact and current opinion is not always clear. Readers should prefer the primary sources wherever possible.

Recommendation

Use this document as a starting point, not an ending point. Verify any claim you intend to act on against at least one independent source.
